☑ Show Advanced Tools

Enables advanced features, including: project alternatives and backups, beat mapping, expanded mixing and automation capabilities, additional editors and browsers, and more. Additional options become available and can be individually enabled.

Additional Options

☐ Audio

Enables destructive audio editing, and advanced configuration options for audio editing experts.

☐ Surround

Enables all features for surround audio productions, and requires a surround speaker setup for monitoring.

⑤ ☑ MIDI

Allows signal flow control and real-time processing of MIDI input and output streams in the Environment.

⑥ ☑ Control Surfaces

Allows experts to create new, and edit any functional detail of existing control surface systems.
